Warren Buffett  
Chairman, and CEO  
Berkshire Hathaway  
3555 Farnam Street  
Omaha, Nebraska  
68131

Dear Mr. Buffett,

One final point. Please do not simply forward the enclosed letter to you of this date and additional enclosures to Lubrizol. Make certain your lawyers review all of this in detail. It would be very useful for you to do so as well. This is very serious, and requires full review by Berkshire Hathaway, particularly because of my concerns of retaliation.

Thank you for your understanding.

Sincerely,

Mark L. Nelson  
Chairman, President & CEO  
Polar Molecular Holding Corporation

February 20, 2018

Mr. Robert Mitchell  
Managing Partner  
Deloitte & Touche  
1601 Dodge Street #3100  
Omaha, Ne. 68102

Dear Mr. Mitchell,

Please read the enclosed letter to Mr. Warren Buffett of this date.

Please understand, I have no ill will towards Mr. Buffett, or you for that matter. I am simply trying to recover damages and to protect my company, my stockholders and my family from further illegal attacks by Lubrizol "et al", including an "agent provocateur" of Lubrizol, a sleazy, insidious criminal, Carl Hill.

I realize that after my response to Mr. Buffett's December 13, 2017 letter, Berkshire's lawyer's are busy erecting defenses for Mr. Buffett and Berkshire Hathaway. If someone would simply talk to me it would become apparent that there is no need for any of that.

The only thing needed is a good faith communication/negotiation to resolve my concerns about Lubrizol, "et al", and the payment of a reasonable settlement of damages we have suffered. As our first company attorney would always say, "don't turn an ordinary fly ball into a great play !!"

Meanwhile, I'm certain that the ruthless characters at Lubrizol are attempting to crush me in any way they can, (in concert with their agent C. Hill), no matter how unlawful their tactics. Obstruction of Justice and Retaliation against a Witness are RICO offenses. They don't give a damn about right or wrong, and simply wish to cover up their illegal acts against us, and continue to benefit from the "pirated" Duralt technology. If Mr. Buffett, and Berkshire get embarrassed in the process, they don't care.

I have held off taking additional counter measures for 4 weeks, hoping someone at Berkshire would contact me. That didn't happen. Meanwhile another important Polar Holding business opportunity has been undermined by Lubrizol. As a result, I must now prepare to launce further counter measures, including those discribed in the enclosed letter to Mr. Buffett.

I have to repair the financial devastation we have suffered, and I have to protect my family, our company and shareholders from further attacks by Lubrizol, "et al". I simply have no choice.

Maybe you should talk to Mr. Buffett and convey this message.

If Mr. Buffett's reputation for fair business principles is correct, he should want to resolve all of this in a fair and equitable manner, as I do. The fact that he responded personally to my December 10<sup>th</sup> letter, and didn't simply provide my letter and evidence to Berkshire's lawyers and/or Lubrizol was somewhat encouraging.

However, his suggestion that I take up the matter directly with Lubrizol was clearly unworkable, as I knew from hard experience over many years that Lubrizol would never act in good faith, unless required to do so by Berkshire Hathaway.

Feel free to call me if you wish. In any event ask Mr. Buffett to have a representative contact me before end of business on Friday. If this happens we can get this entire matter under control with some reasonable co-operation, and good faith action.

Sincerely,

Mark L. Nelson  
Chairman, President & CEO

POLAR  
MOLECULAR  
HOLDING  
CORPORATION

February 20, 2018

Mr. Warren Buffett  
Chairman & CEO  
Berkshire Hathaway Inc  
Suite 1440  
3555 Farnam Street  
Omaha, Nebraska  
68131

Dear Mr. Buffett,

I would like to start out **by saying that although this matter is very personal to me, nothing I have said was meant to be disrespectful to you. My problem is with Lubrizol, and it's a longstanding one.**

However, I am very concerned **that you as CEO of Berkshire Hathaway, and Berkshire legal counsel are not communicating directly with me about the Legal Claims Against Lubrizol that I have provided to you. This failure on the part of you and Berkshire to have open and direct communication about our concerns and the evidence I have provided is highly improper.**

Additionally, I am now very certain that **Lubrizol was been given the evidence I provided to you, and there is already retaliation by Lubrizol, and Lubrizol's "agent provocateur" (a sleazy crook named Carl Hill who I sued for 7 years in federal court) against the witnesses, Polar Holding and me personally. Hill, a Michigan resident, has apparently been given unlimited financial resources to travel to Highlands Ranch, Colorado, and elsewhere, and to pay to incite illegal acts against Polar Holding and me personally.**

**Hill has even been appearing at my place of worship, St Mark Catholic Church in Highlands Ranch, and at the specific Masses I attend. Hill's appearances coincide with dates that I have taken actions against Lubrizol. This includes December 12, 2017 when you, and Mr. Mitchell received my letter and evidence against Lubrizol, and January 23, 2018 the day after you and Mr. Mithcell received my letter dated January 19, 2018 by Fed Ex. (I took iphone pictures, enclosed).**

**Hill was the subject of an update to a federal enforcement agency that I filed on December 4, 2017. The update detailed Hill's involvement in a bankruptcy fraud in which Hill and his co-defendants, represented by an Amway law firm, held a fraudulent auction of our Patents and Trademarks without a court order from the U.S. Bankruptcy Court. After the auction the patents and trademarks were unlawfully abandoned, and Lubrizol**

9457 S. University #312  
Highlands Ranch, CO 80126

**Polar Molecular Holding Corp.**

Phone: 303.552-1267  
Email: PolarTech@Comcast.Net

began to commercialize the underlying Duralt plus detergents technology, including to Amway for a product XLP(Duralt plus detergent) then sold on the Amway website.

It appears that Lubrizol, with assistance from Hill, is now making a determined effort to complete the total destruction of Polar Holding, and is launching a full scale retaliation against me, personally, in hopes of "burying" the witness. This activity is illegal and a violation of RICO.

With assistance from Hill who breached a Non Disclosure Agreement, Lubrizol undermined an important business deal with a major fuels terminal operator, in the Northeast. After 16 months of preparation for a market launch the deal was terminated on February 8, 2018, after Hill and then Lubrizol illegally received a disclosure I made to the terminals operator CEO concerning a federal complaint and case against Lubrizol, "et al" and Hill. Shortly after that it appears that Lubrizol attempted to obstruct the case. I will identify the company under confidentiality, if you agree to discuss our concerns.

(Naturally, Hill and his wife appeared 2 days after the termination of the terminal operator deal at St. Mark Catholic Church, Saturday, February 10<sup>th</sup> at 4:00 pm Mass I attend, for a "victory lap". This sociopathic behavior by Hill is retaliation and stalking of a witness at the very least).

Not only is this tortious interference, but also constitutes violations of the U.S. Economic Espionage Act, the Clayton Act, the Sherman Anti-Trust Act, anti-competitive business practices, Obstruction of Justice, Retaliation Against a Witness, and RICO.

I have warned you about Lubrizol retaliation activity before. Lubrizol appears to be unfettered in this activity, with no restraints being placed on Lubrizol by the parent, Berkshire Hathaway and you as CEO.

This is particularly troubling, especially as Berkshire Hathaway has benefited since 2011 from Lubrizol's commercialization of the "pirated" Duralt technology developed by my family, and has continued to do so since my communications in January 2017, and up to the present time. Lubrizol has also usurped Polar Holding business with a major European oil company, and appears to be selling the "pirated" Duralt technology to and a major detergent additive supplier, a company I personally involved in a research project with a major oil company. Once again, under confidentiality I will be specific as to the identities of the companies.

Given the size and eminence of Berkshire Hathaway, and your vast wealth I believe you can do without the continued pirating of Duralt by Lubrizol.

I have a few additional observations, after which I would like to propose a amicable resolution of the Lubrizol matter.

I've just read again my letters to you and Mr. Mitchell, both dated December 10, 2017, and your reply to me dated December 13, 2017. I wrote, and sent additional letters to you and Mr. Mitchell responding to your letter, with more detail about my concerns of

Lubrizol's unlawful conduct against the interests of Polar Holding, PMC, our stockholders and my family.

In your letter to me dated December 13, 2017 you said "I've read carefully your letter. I understand that you would like me to intervene in the dispute with Lubrizol. This I won't be able to do. Lubrizol has an outstanding CEO and his knowledge of the facts-which I'm sure would end up being in dispute-is far greater than what I can learn in any briefing".

First of all Mr. Buffett, in my December 10, 2017 letter I requested that Berkshire Hathaway review my detailed evidence of Lubrizol's unlawful acts against our interests. The evidence is in the Brief entitled LEGAL CLAIMS AGAINST LUBRIZOL and 3 books of exhibits that accompanied my letter. This is not a request for a briefing opportunity. As the parent company Berkshire Hathaway, a public company with SEC reporting, and disclosure requirements, is obligated to have its legal counsel review these allegations, and evidence in detail, independent of Lubrizol.

Then you said, "Normally, I would forward your letter to the CEO but my impression is that you may not want me to do so. Consequently, the only one who has seen your letter is me and I will not share its contents with either Berkshire's lawyers, Lubrizol's lawyers or the management of Lubrizol."

With all due respect Mr. Buffett, I had hoped you would share my letter, the Brief and exhibits with Berkshire's lawyers. As for Lubrizol and its legal counsel that was your call, and given the retaliation I cited by Lubrizol, "et al" against a witness, me, maybe that was a prudent decision, at least until Berkshire's lawyers independently assessed the evidence I provided against Lubrizol. In fact, there have now been additional acts of retaliation against a witness, me. (By the way, I did copy Mr. Mitchell, your auditor on the letter and evidence I provided to you).

One additional point is this. If you would normally provide the CEO of Lubrizol my letter, I assume you did so when I sent my letter and evidence against Lubrizol to you, and Mr. Mitchell in January 2017, asserting "billions of dollars in damages". (In a financial assessment by a noted economist, located in the LEGAL CLAIMS brief that I provided to you and Mr. Mitchell on December 12, 2017, the lost net revenues we suffered due to Lubrizol's unlawful actions by January 2017, are in fact \$27 billion). Berkshire's lawyers should have independently reviewed and assessed the evidence I provided at that time. Did you really believe Lubrizol would freely admit any wrong doing?

Even if Berkshire factored in Lubrizol's dispute of the facts, there should have been open, good faith discussion of the claims with me and a settlement of the claims or disclosure of the claims, and contingent liabilities in your SEC 10K and audited financials, in March 2017.

The failure of Berkshire Hathaway to, at minimum, disclose the contingent liabilities for the legal claims and potential financial liabilities is a violation of SEC rules and regulation. This failure to disclose not only disadvantaged your investors, but it also disadvantaged

Polar Holding and the Nelsons. For one thing it allowed Lubrizol to "play in the shadows", and continue to inflict damages on Polar and the Nelsons.

Additionally, the disclosure of the contingent liability would have helped enable Polar Holding and the Nelsons to engage adequate legal representation on a contingency fee basis to protect our interests, and deter Lubrizol's continuing unlawful acts against us.

Apparently, our lack of legal representation is why Berkshire Hathaway believes it can ignore our concerns and substantial evidence, and sees no need to settle the Legal Claims Against Lubrizol.

I also believe that Lubrizol has used this "failure to disclose", to "play in the shadows" in attempts to obstruct a federal complaint I filed in February, 2017. Lubrizol and it's "agent provocateur, Carl Hill have also used this "play in the shadows" scenario to retaliate against a witness, me. I have asked you to instruct Lubrizol management to "stand down". This apparently has not happened and the retaliatory attacks have continued. Ultimately, for all of the above stated reasons, the parent, Berkshire Hathaway is also accountable, and liable for damages suffered by Polar Holding and the Nelsons.

Mr. Buffett, notwithstanding the aforementioned issues, I believe your reputation, by and large, is accurate, and that you are a fair and honest man. Please don't prove me wrong. However, I think your trust in Lubrizol is misplaced, based on my 30 years of bad experience with that firm. Moreover, I believe an independent review of my evidence against Lubrizol's unlawful acts against our interests over 30 years is absolutely needed, given Berkshire's SEC reporting, and disclosure requirements, and in the interests of justice, and fair business practices.

I'm obliged by duty and love to correct the financial devastation, and the injustice that has occurred. Your company, Berkshire Hathaway owns Lubrizol, and can and should correct the problems caused by Lubrizol's ongoing unlawful actions against those I am responsible for.

Here's my proposal:

- 1). Berkshire Hathaway, Polar Holding and the Nelsons, (both represented by me), enter into a confidentiality agreement to discuss all of the evidence I have against Lubrizol, "et al", and allow you to access the damages caused by Lubrizol, and the remedies needed.
- 2). Concurrent with execution of the confidentiality agreement a non-refundable good faith deposit on the claims against Lubrizol of \$30 million is made to Polar Holding and the Nelsons by Berkshire Hathaway.

Also, concurrent with execution of the confidentiality agreement a non-refundable, good faith deposit of \$30 million dollars against the potential claims against Berkshire Hathaway is made to Polar Holding and the Nelsons.

3). At the end of the Option period, a settlement negotiation shall ensue, for a pre-determined period of time, to be mutually agreed by the above parties at the outset.

The final, mutually agreed settlement amounts will be paid to Polar Holding and the Nelsons by Berkshire Hathaway.

If you have an alternate settlement proposal, I am willing to consider any fair and reasonable offer.

Any additional consideration for settlement of the claims will be subject to approval by the parties.

Now, I have done all I can to avert unnecessary trauma. I will prepare to act, but will hold up until end of business Friday, February 23, 2018. If you provide a positive response by end of business on February 23 we will proceed as detailed above, (or with an acceptable counter plan). I have full authority to act as I am not only Chairman, President & CEO of Polar Holding, but also the majority shareholder. I also represent my family's interests.

Unfortunately, if I don't receive a positive response by then, I will have no choice but to proceed immediately with a multi-faceted action that doesn't require a great deal of money.

This action will undoubtedly include sending all of my communications to you and Mr. Mitchell, your December 13 letter to me, and the LEGAL CLAIMS BRIEF and exhibit books to the United States Securities and Exchange Commission. At the same time there will be public dissemination of the evidence against Lubrizol that I have provided to you and Mr. Mitchell and all of the written communications between us.

I will prepare a transmittal letter to SEC and an appropriate news release. Both will be sent out on Monday February 26, 2018, barring commencement of an acceptable settlement deal.

This is the only way I can protect Polar Holding, our stockholders and my family from further unlawful attacks by Lubrizol, "et al", especially since there is no apparent effort by Berkshire Hathaway to halt such lawless activity.

Shining a bright light on Lubrizol's 30 year conspiracy against us is the best means of protecting against continuing unlawful behavior, including personal retaliation. Given my extremely limited financial resources, and lack of legal representation, it is truly the only way I can proceed. A conspiracy hates the light of day. I will shine a bright light on it to protect Polar Holding, our stockholders and my family from further attacks.

Sincerely,

Mark L. Nelson  
Chairman, President & CEO  
Polar Molecular Holding Corporation  
And on behalf of the Otis L. Nelson, and Mark L. Nelson Family.

cc. Robert Mitchell

PS. A personal note, to help you understand why I'm so passionate about the above issues.

The first investor in our family business was my brother, David Howard Nelson. Dave suffered a head injury when hit by a car riding a bike on April 10, 1995. After the doctors did all they could we took Dave home and started a therapy program provided by the Institute For Development of Human Potential, in Philadelphia.

We had 130 volunteers working 3 shifts a day, 6 days a week. My mother had a serious heart condition, so we eliminated Sunday sessions to give her some much needed rest. After a two and a half year struggle, we lost Dave to chronic, recurring lung infections. Dave had a difficult childhood due to chronic Bronchial pneumonia. My earliest memories are of my little brother Dave sitting in a make shift oxygen tent with my Mother, and little Dave looking out a hospital window at my sister Joan and I with our Easter baskets, while we waved at him.

Ultimately this vulnerability in his lungs ended his life at age 28. Dave's injury was covered by two matching insurance policies. My parents set up a trust for Dave with the matching funds. After Dave's passing, Dad and I started our family business with these matching funds that ultimately led to the Duralt inventions.

Thus my brother Dave paid for the family business start up with very hard earned money, and his life.

(David Howard Nelson, April 16, 1950-October 8, 1978).(Pictures Enclosed).

As for my father, the late Otis L. Nelson Jr., I have stated in letters to you that he died after suffering a stroke, while relentlessly fighting to save our company and Duralt inventions from Lubrizol, "et al".

Dad was a World War 11 combat veteran. He served in the 1<sup>st</sup> Ranger Batallion. On the push off from the Anzio, Italy beachhead, the 1<sup>st</sup> Ranger Batallion, and the 3<sup>rd</sup> Ranger Batalion led the spearhead, and ran into the Herman Goering Panzer (tank) division. Out gunned by tiger tanks, nearly 300 Rangers were killed in the ensuing, desperate battle, and hundreds of Rangers were captured. Although wounded, my Dad was one of only eight Rangers who escaped, and evaded at nightfall back to American lines.

After healing, Dad joined another elite combat unit, The First Special Service Force, a legendary U.S./Canadian fighting unit, the brainchild of Army Chief of Staff General George C. Marshall, and Lord Montbatten of England. Dad then fought the rest of the war in the FSSF throughout Italy, France and finally Germany.

After surviving intense combat in WW11 in Europe, my Father had a stroke and died in America, fearlessly fighting well financed, big corporate thugs in a desperate battle to

save his company, family and inventions. I find that to be very ironic and highly outrageous. How do you feel about that Mr. Buffett?  
(Otis L. Nelson, Jr. January 21, 1924-August 3, 2009). (Pictures enclosed).

My Father died on August 3, 2009. He was a very youthful 85 year old man. My sister Joan Nelson borrowed against the equity in her home to cover the funeral and burial costs. A military Honor Guard was present at the grave site ceremony in honor of my Father's military service in the Rangers and the First Special Service Force in WW11. At the time of Dad's death I was physically and emotionally exhausted after years of corporate war with Lubrizol, "et al", and then the loss of my Father under very difficult circumstances.

My fiancée, and life partner, Sharon Elizabeth Minnock likely saved my life and the company. Intelligent, courageous and beautiful, Sharon had developed a very successful computer software consulting business. She insisted on buying a house in November, 2009, in Highlands Ranch, Colorado, a suburb of Denver. Sharon paid the mortgage and other bills, outfitted an office for me and enabled me to continue the fight for our company and Duralt FC Technology through years of litigation.

Sharon worked tirelessly, perhaps too much so. In March 2013 she was diagnosed with pancreatic cancer. She died on June 4<sup>th</sup>. In her will she asked to be cremated and that I scatter her ashes in the Rocky Mountains. I did scatter some of her ashes on Mt. Evans, but couldn't bear to give her ashes up completely. They rest in an urn in our bedroom on a table by a window overlooking Mt. Evans and the Rocky Mountains she loved.  
(Sharon Elizabeth Minnock. March 17, 1952-June 3, 2013) (Pictures Enclosed).

Given the sacrifices made by those I love, and the continued injury to others I love, I am obliged to bring this matter to a satisfactory and just resolution. I trust you can appreciate this, and will hopefully "do the right thing".

Sincerely,   
Mark L. Nelson

**ST. FRANCIS PRAYER OF PEACE**

Lord,

Make me an instrument of your peace:  
Where there is hatred, let me sow love;  
Where there is injury, pardon;  
Where there is doubt, faith;  
Where there is despair, hope;  
Where there is darkness, light;  
Where there is sadness, joy.  
O Divine Master,  
Grant that I may seek not  
So much to be consoled as to console;  
to be understood as to understand;  
to be loved as to love;  
for it is in giving that we receive;  
it is in pardoning that we are pardoned,  
and it is in dying that we are  
born to Eternal Life.

Amen

### *Highlights (so far) from the life of Otis Lovel Nelson, Jr. (aka Pook)*

- Born on January 21, 1924 in Bay City, MI --a little earlier than expected--to Otis, Sr. and Esther (Parker) Nelson. Given the formal name Otis Jr., he was nicknamed 'Pook' by siblings. Sisters and brothers included Cecilia, Bemice, Ed, Dick, Pat, Harry, and Beverly.
- A good student with a love of history, a taste for adventure, and a penchant for Zane Grey novels, he graduated from Central High School in June of '42.
- He followed his brother Ed into military service, and joined the Army's Quartermaster Corps in 1943. Once stationed in North Africa, he transferred to the 1st Ranger Battalion under Colonel Darby of 'Darby's Rangers' fame. (Rumor has it that he picked a fight with a superior NCO --and won-- in order to obtain this 'transfer', one that brought him into major action.) After the decimation of the 1st Ranger Battalion at Anzio, Otis (one of ten from the battalion who were not killed or captured by Hermann Goering's Panzer Division) joined the Canadian-American First Special Service Force, 1st Company, 2nd Regiment under Colonel Fredenicks. Otis was recommended for various decorations, and received a purple heart for wounds sustained in combat. He arrived back home on October 30, 1945 after 28 months overseas.
- Postscript: In 1998, Otis was awarded the Canadian Parachute Silver Maple Leaf Wings by the Canadian government for service with the 1st Special Service Force during WWII.
- Otis married Eva June Brown on August 31, 1946. The two were introduced to one another by Otis's Uncle Dewey at a VFW event.

- Otis and Eva had their first child, Mark, on July 24, 1947. Joan followed on February 22, 1949, and David arrived on April 16, 1950. The family lived on Beaver Road in a house built by Otis, and located a stone's throw from the houses of

ANDREW MEDICHINI/Associated Press

**Hiding place:** People take part in a memorial ceremony Friday in the grottos of Cisterna di Latina, near Rome where the town's population lived for months during the war in 1944.

## Italian town marks World War II tragedy

ASSOCIATED PRESS

**CISTERNA DI LATINA, Italy** — For American forces fighting their way north to Rome, it was the site of a heroic but hopeless stand, where only eight men out of two Ranger battalions escaped German troops.

For the Italians caught in the fighting, it was the place where they lived underground for months before being sent on a forced march north by the Germans.

On Friday, the anniversary of the roundup in 1944, this town between Anzio and Rome held its annual commemoration of the bloody events of World War II with ceremonies held beside a monument to victims of all wars.

### Cisterna battle

This town of 32,000 people, once a manufacturing center but now the heart of kiwi production in Italy, has not forgotten the elite U.S. Army Rangers, who fought to liberate them from the Nazi occupiers. There is a Via dei Rangers, a school named after the Rangers' commander William O. Darby and signs noting Cisterna is twinned with Darby's hometown, Fort Smith, Ark.

The site of the Cisterna battle, alongside a canal on the road to Nettuno, is recorded by a plaque in English, German and Italy recalling those who "fought and died."

### Rangers slaughtered

By all accounts, the Cisterna battle was a disaster for the Americans. The Rangers were used as a spearhead after the landing at Anzio, but because of poor intelligence met unexpected, fierce resistance at Cisterna and by authoritative accounts did not have the support weapons to overcome it as they battled through mud and drainage ditches. Rick Atkinson, in the book "Day of Battle" said 250 to 300 Rangers died and eight escaped, leaving hundreds of others captured.

"We lived for months underground," said Bruno Fieramonte, 75, a retired school teacher. Then, on March 19, the Germans rounded up the entire town and marched them north. Many ended in labor camps and farms as far north as Tuscany.

Surviving Rangers, mostly in their 80s, generally visit around American Memorial Day, combining it with a stop at the military cemetery in Anzio-Nettuno.
