Mr. Robert Mitchell  
Managing Partner  
Deloitte & Touche  
1601 Dodge Street #3100  
Omaha, Ne. 68102

Dear Mr. Mitchell,

Please read the enclosed letter to Mr. Warren Buffett of this date.

Please understand, I have no ill will towards Mr. Buffett, or you for that matter. I am simply trying to recover damages and to protect my company, my stockholders and my family fom further illegal attacks by Lubrizol "et al", including an "agent provocateur" of Lubrizol, a sleezy, insidious criminal, Carl Hill.

I realize that after my response to Mr. Buffett's December 13, 2017 letter, Berkshire's lawyer's are busy erecting defenses for Mr. Buffett and Berkshire Hathaway. If someone would simply talk to me it would become apparent that there is no need for any of that.

The only thing needed is a good faith communication/negotiation to resolve my concerns about Lubrizol, "et al", and the payment of a reasonable settlement of damages we have suffered. As our first company attorney would always say, "don't turn an ordinary fly ball into a great play !!"

Meanwhile, I'm certain that the ruthless characters at Lubrizol are attempting to crush me in any way they can, (in concert with their agent C. Hill),no matter how unlawful their tactics. Obstruction of Justice and Retaliation against a Witness are RICO offenses. They don't give a damn about right or wrong, and simply wish to cover up their illegal acts against us, and continue to benefit from the "pirated" Duralt technology. If Mr. Buffett, and Berkshire get embarrassed in the process, they don't care.

I have held off taking additional counter measures for 4 weeks, hoping someone at Berkshire would contact me. That didn't happen. Meanwhile another important Polar Holding business opportunity has been undermined by Lubrizol. As a result, I must now prepare to launce further counter measures, including those discribed in the enclosed letter to Mr. Buffett.

I have to repair the financial devastation we have suffered, and I have to protect my family, our company and shareholders from further attacks by Lubrizol, "et al". I simply have no choice.

Maybe you should talk to Mr. Buffett and convey this message.

If Mr. Buffett's reputation for fair business principles is correct, he should want to resolve all of this in a fair and equitable manner, as I do. The fact that he responded personally to my December 10<sup>th</sup> letter, and didn't simply provide my letter and evidence to Berkshire's lawyers and/or Lubrizol was somewhat encouraging.

However, his suggestion that I take up the matter directly with Lubrizol was clearly unworkable, as I knew from hard experience over many years that Lubrizol would never act in good faith, unless required to do so by Berkshire Hathaway.

Feel free to call me if you wish. In any event ask Mr. Buffett to have a representative contact me before end of business on Friday. If this happens we can get this entire matter under control with some reasonable co-operation, and good faith action.

Sincerely,

Mark L. Nelson  
Chairman, President & CEO  
Polar Molecular Holding Corporation
