Dear President Trump,

I know you are preparing for a orderly transition in the event Biden is inaugurated. In any event, I know you are preparing an effective counter attack. At the least, you are already taking measures to recover the White House, and the Congress. Here's what I can offer.

1). You are going to need the money. I can help you there. I have a pending SEC Complaint Against Warren Buffett, Bill Gates, Stephen Burke the former CEO of NBC, other elements of the Fake News media including the AP and Reuters, and the Democratic leadership including Nancy Pelosi, Maxine Waters, AOC, Ayanna Pressley, and others including potentially, Joe Biden, Senators Elizabeth Warren and Bernie Sanders.

2). I also have a pending FTC Complaint V Buffett subsidiary the Lubrizol Corporation, and others. The liabilities against Buffett, Gates, Berkshire Hathaway and Lubrizol, "et al" are around \$40 billion, and up to about \$100 billion if a Rico or Federal Trade Law violation is upheld in Federal Court. I believe both civil Rico and FTC claims are valid.

In fact, I have enclosed the Summary Brief of my latest Update to the FTC Complaint dated November 6, 2018 and filed in December 2018. There are continuing, well documented violations of law by Buffett, "et al" and Lubrizol up to the present time. The damages are documented in a Economist Report by Dr. Frank Stafford of the University of Michigan.

This is where the funding for the counter attack, among other things is coming from.
